

ASEP Mission

CLIP ASEP Mission is to provide a quality after school enrichment program for Meyerholz Elementary school and the Cupertino Language Immersion Program focusing on Chinese Culture and Language.

ASEP History

CLIP's After School Enrichment Program (ASEP) was started by CLIP parent volunteers during the 2006-2007 academic year and moved under the CLIPCO umbrella in 2008. Classes are open to all CLIP and Meyerholz Elementary students.

ASEP initially started with three major components, after school classes, Chinese language contests and Chinese New Year Parade Team. Due to the size and success of the language contest and parade team, both programs were split off and managed as their own entity.

The classes offered have varied over the years. Each year ASEP has provided an average of eight classes each year. They range from performing arts to visual arts and from traditional techniques to modern.
